

PREVENTION & VICTIM SERVICES

Alice Sims
*Assistant Secretary for Prevention &
Victim Services*
(850) 717-2433
Alice.Sims@djj.state.fl.us

The Florida Department of Juvenile Justice (DJJ) is charged by the Florida Legislature with providing delinquency prevention services for at-risk youth. The Office of Prevention and Victim Services offers many voluntary prevention, intervention, and treatment service programs for youth throughout the state of Florida. These

During FY 2018-19, state and federally funded prevention programs provided services to 33,495 youth.

services are designed to address specific needs and provide interventions for at-risk youth and their families to prevent juvenile crime and protect public safety. Programs use the risk factors identified by research to target at-risk juveniles and those who exhibit problem behaviors such as ungovernability, truancy, running away from home, and other pre-delinquent behaviors. Risk factors related to delinquent activity include specific issues in the areas of family,

school, substance abuse, and delinquent behavior. The Department addresses these issues by contracting for services and awarding grants to community-based organizations to provide delinquency prevention programs across the state. Funding for prevention programs comes from a variety of sources including general revenue, state trust funds, and federal grants. The Department receives general revenue funds for three primary programs: Children in Need of Services/Families in Need of Services (CINS/FINS), PACE Center for Girls, and North Carolina Outward Bound School. Other prevention programs are funded through two different sources: (1) state grants, which include State Community Partnership and Invest in Children, and (2) federal grants, which are administered by the Office of Juvenile Justice and Delinquency Prevention (OJJDP), Office of Justice Programs, U.S. Department of Justice.

Profile of Youth Served in Prevention Programs

Profile data are based on the number of unduplicated youth who were served by prevention programs in FY 2018-19 and are reported by activity type.

Outcome Evaluation Performance of Prevention Programs

For the FY 2018-19 Comprehensive Accountability Report (CAR), recidivism data for prevention programs was reported on youth who completed prevention services during FY 2017-18. Presented in the following tables are the Summaries and Outcomes, which include total releases, the percentage of youth adjudicated for offenses committed during services (ODS), number of completions and completion rates, demographic characteristics, average prior seriousness index, average length of stay, and recidivism rates. The recidivism rates reflect one fiscal year of subsequent adjudications or convictions.

Prevention Services: Program Profile Summaries and Outcomes on Youth Completions FY 2017-18

Prevention Total	19,567	2%	1%	17,556	90%	52%	42%	21%	13.2	0.6	109.9	4%	6%

¹The ODS is the percentage of releases adjudicated for an offense during supervision. 'Any' includes any Law Violations or non-law violation; 'Law Violations' include only misdemeanor or felony offenses.

²N = number of cases. Italics indicate the program completed fewer than 15 youth; therefore, care should be taken in interpreting these data.

³The seriousness index is composed of the sum of all the scores of the prior charges that resulted in adjudication. This changed from "charges" to "adjudications" during FY 2007-08; therefore, comparisons to index calculations in previous reports should be considered accordingly. The following point values are assigned: 8 for a violent felony, 5 for a property or other felony, 2 for a misdemeanor, and 1 for any

⁴Subsequent adjudications or convictions is the official recidivism definition for the Department of Juvenile Justice. As of the 2011 Comprehensive Accountability Report, violations of community supervision are no longer counted as recidivism. Recidivism rates listed reflect a 12 month period of time.

¹The ODS is the percentage of releases adjudicated for an offense during supervision. 'Any' includes any Law Violations or non-law violation; 'Law Violations' include only misdemeanor or felony offenses.

²N = number of cases. Italics indicate the program completed fewer than 15 youth; therefore, care should be taken in interpreting these data.

³The seriousness index is composed of the sum of all the scores of the prior charges that resulted in adjudication. This changed from "charges" to "adjudications" during FY 2007-08; therefore, comparisons to index calculations in previous reports should be considered accordingly. The following point values are assigned: 8 for a violent felony, 5 for a property or other felony, 2 for a misdemeanor, and 1 for any other charge.

⁴Subsequent adjudications or convictions is the official recidivism definition for the Department of Juvenile Justice. As of the 2011 Comprehensive Accountability Report, violations of community supervision are no longer counted as recidivism. Recidivism rates listed reflect a 12 month period of time.

¹The ODS is the percentage of releases adjudicated for an offense during supervision. 'Any' includes any Law Violations or non-law violation; 'Law Violations' include only misdemeanor or felony offenses.

²N = number of cases. Italics indicate the program completed fewer than 15 youth; therefore, care should be taken in interpreting these data.

³The seriousness index is composed of the sum of all the scores of the prior charges that resulted in adjudication. This changed from "charges" to "adjudications" during FY 2007-08; therefore, comparisons to index calculations in previous reports should be considered accordingly. The following point values are assigned: 8 for a violent felony, 5 for a property or other felony, 2 for a misdemeanor, and 1 for any other charge.

⁴Subsequent adjudications or convictions is the official recidivism definition for the Department of Juvenile Justice. As of the 2011 Comprehensive Accountability Report, violations of community supervision are no longer counted as recidivism. Recidivism rates listed reflect a 12 month period of time.

Legislative Appropriations

Children in Need of Services and Families in Need of Services (CINS/FINS)

Chapter 984, Florida Statutes, defines and mandates services to Children in Need of Services (CINS) and Families in Need of Services (FINS), and Chapter 1003.27(3), Florida Statutes, provides for crisis counseling and shelter for runaway, ungovernable, troubled, and habitually truant children (ages 5-17) and their families. Children who are adjudicated dependent or delinquent are not eligible for services. The Florida Network of Youth and Family Services provides CINS/FINS services through a contract with DJJ.

The intent of CINS/FINS is to divert children who commit status offenses from entering the child welfare or juvenile justice system. The community agencies of the Florida Network of Youth and Family Services operate youth crisis shelters and provide non-residential services across the state of Florida as part of a continuum of services for children 5 to 17 years of age and their families. The Florida Network of Youth and Family Services and the nonprofit community-based providers/agencies provide only non-residential services in seven of the largest urban counties in the state. Every judicial circuit has at least one Florida Network of Youth and Family Services provider. Every county has access to services and centralized intake. Shelter services are accessible 24 hours a day, 7 days a week. CINS/FINS agencies provide the following services:

- **Centralized Intake:** Intake functions as the initial entry into the service continuum and includes child and family assessment, counseling, and case management.
- **Screening:** Youth are screened for eligibility and referred either to emergency shelter care, non-residential counseling, or other community services more appropriate for their needs if they are not eligible for CINS/FINS services. All CINS/FINS agencies maintain interagency agreements with other community-based service providers to connect clients with desired services and provide an effective continuum of care.
- **Acceptance and Assessment:** The admission process provides eligible children and their families with the least-restrictive services that are responsive to their individual needs. Once eligibility is determined and the youth is accepted for services, the child is assessed by a counselor to determine his or her most immediate needs and presenting issues. Within 72 hours of acceptance, a complete psychosocial assessment is conducted. The counselor develops a service plan that provides for individual, group, and family counseling, as well as specialized services that may be needed from community schools, medical clinics, vocational, or other programs.
- **Prevention Outreach:** These services increase public awareness through printed materials, websites, and presentations to key referral sources such as schools, law enforcement, and civic groups at both the local and state levels.

- **Case Management:** All eligible youth and families admitted receive case-management services. These services include: information gathering, supportive linking, advocacy, coordinating and monitoring services, case review, and termination planning. When the agency's short-term services have resolved the family's immediate crisis, the family is connected with longer-term community services that will continue to build on the strengths identified while receiving CINS/FINS services.
- **Non-Residential Counseling Services:** If the immediate crisis in the family can be handled, and it is safe for the child to return to or remain at home, the family is offered non-residential counseling services. These services include, but are not limited to, crisis intervention and individual, group, and family counseling. Services are provided to CINS/FINS clients in their homes, at established community locations, or at the local agency's offices.
- **Shelter Services:** If it is not possible for the child to remain at home, he or she is admitted to a crisis shelter. This service is short-term, generally lasting less than two weeks. Shelter services are primarily voluntary and include crisis intervention, shelter, food, clothing, case management, and counseling. Staff-secure shelter is available for children meeting statutory criteria (Sections 316.635, 318.143, 984.09, 985.037, Florida Statutes).

Other Prevention Services

Male Gender Specific Services

Gender specific services are prevention and intervention services provided to boys only, in a non-traditional educational setting. The boys are diverted from initial contact with the Department or from further Department involvement. Eligible youth include boys who enter the program voluntarily, are at risk of delinquency and are ages eleven (11) to seventeen (17). Services include evidence-based interventions, case management, community and service learning, referrals for counseling and transition planning.

PACE Center for Girls, Inc.

Practical Academic Cultural Education (PACE) is a community-based, gender-responsive prevention, diversion and early intervention program serving girls, ages 11-17, across the state. In FY 2017-18, PACE had 21 centers serving the following areas: Alachua, Broward, Clay, Citrus, Collier at Immokalee, Escambia-Santa Rosa, Hillsborough, Hernando, Duval (Jacksonville), Lee, Leon, Manatee, Marion, Miami-Dade, Orange, Palm Beach, Pasco, Pinellas, Polk, Treasure Coast, and Volusia-Flagler.

PACE accepts referrals from the juvenile justice system, the Department of Children and Families, school personnel, community service agencies, court system, law enforcement, parents, family members, friends, and self-referrals. Its purpose is to intervene and prevent school withdrawal, juvenile delinquency, teen pregnancy, substance abuse, and welfare dependency. PACE programs provide the following services: academic education,

individualized attention, a gender-specific life management curriculum, counseling and case management, encouraging parental involvement, student volunteer service projects, and transition follow-up services. Every girl at PACE sets individual educational and social goals that are focused on earning a high school diploma or GED, re-entering public school, attending college, getting vocational training, joining the military, or entering the private workforce. After program completion, PACE continues to monitor each girl's educational and personal development with three years of follow-up.

Prodigy Program

The Prodigy Cultural Arts Program: A Tampa Arts & Youth Demonstration Program follows a diversion, prevention and intervention research model program for children between the ages of 7 and 17. The objective of the program is to improve the lives of at-risk children by exploring the extent to which the juvenile justice system and community based organizations can engage young people successfully in artistic endeavors, and through art instruction, affect the quality of life, the community functioning and the school performance of those youth. The provider and approved subcontractor(s) operate the Prodigy Cultural Arts Program in a seven-county network (Hillsborough, Manatee, Sarasota, Pasco, Pinellas, Polk, and Orange) and the Lacoochee-Trilby Community Center. General program components include artistic instruction, case management for diversion participants, program management, and research.

North Carolina Outward Bound School

North Carolina Outward Bound School provides services for CINS/FINS youth. Opened in 1983, the program consists of a 40-day minimum wilderness expedition that is designed to help youth develop personal competencies in group decisions, problem solving, anger management, communication skills, leadership, and service to others. Youth are referred from the court, the Department of Children and Families, schools, and from DJJ. These same-sex programs, located in Circuits 16 and 18, accept youth 13 to 17 years of age. Following the expedition, staff help youth apply what they have learned to their family, community, and school environments through case management follow-up services.

State Trust Fund Grant Programs

The following grant programs provide funding for prevention programs throughout the state. Community Partnership and Invest in Children grant programs are recommended by the local juvenile justice circuit advisory board, although it should be noted that Community Partnership funds do not require circuit advisory board recommendation. These grants include:

Community Partnership Grant Programs

The Community Juvenile Justice Partnership Grant program was established by the legislature to actively address the problem of juvenile crime in Florida. The program encourages the development of partnerships among law enforcement, public schools, DJJ, and the Department of Children and Families in providing juvenile crime prevention services in Florida communities. Priority is given to programs that target at-risk youth between the ages of 10 and 17, and provide services intended to reduce juvenile crime by providing direct services for at-risk and delinquent youth. Funding is received from the sale of every license plate in Florida. According to statute, “of the proceeds of the license tax surcharge, 58 percent shall be deposited into the General Revenue Fund and 42 percent shall be deposited into the Grants and Donations Trust Fund in the Department of Juvenile Justice to fund the community juvenile justice partnership grants program” (Section 320.08046, Florida Statutes).

Invest in Children Grant Programs

Since 1994, Floridians who buy an “Invest in Children” license plate contribute directly to efforts that prevent juvenile delinquency in their home communities. Funds from the specialty license plate go to the Juvenile Crime Prevention and Early Intervention Trust Fund within the Department of Juvenile Justice. Based on the recommendations of the juvenile justice circuit advisory boards, the department shall use the proceeds of the fee to fund programs and services that are designed to prevent juvenile delinquency on state and local programs.

OJJDP Federally-Funded Grant Programs

The Office of Juvenile Justice and Delinquency Prevention (OJJDP), Office of Justice Programs, U.S. Department of Justice awards grant funds to states. Monies received from federal grants are used to fund prevention programs. The Department is responsible for administering the federal funds for Florida. Grants awarded to agencies are categorized into Title II Formula. Members of the Juvenile Justice Delinquency Prevention State Advisory Group (SAG), appointed by the Governor, provide recommendations to approve all federal grant programs.

Title II Formula Grants

Title II Formula Grant awards that are awarded through a competitive bid process to address juvenile justice delinquency prevention through identified program areas inclusive of: juvenile justice system, delinquency prevention, mental health services, compliance monitoring and disproportionate minority contact. Title II sub-grant recipients are reviewed on an annual basis with funding based on availability and awarded through a competitive bidding process. The expectation is that recipients will seek out other funding sources to enable program continuation.

Program Expenditures

The following table provides a listing of the FY 2018-19 expenditures for PACE and Florida Network programs. Expenditures are obtained from the Department's Bureau of Finance and Accounting and from information supplied by providers.
