

PRESENTS:

# Swords and Shields: A Discussion of Power, Privilege, and Opportunity

This keynote is a discussion and exploration of the complexities of power, privilege, and opportunity through the lens of the criminal justice system.

Along the way, Adam will highlight certain disparities and inequities connected to these topics, that can be observed in the context of the criminal justice system and most other essential aspects of society.

Adam's discussion will guide the audience in contextualizing and identifying how privilege impacts their own lives and communities, and facilitate self-reflection and acknowledgement of the role they play in these dynamics.
